

Christopher Lee Rawlings

599-299-7191

Christopher Lee Rawlings began to have a strong interest in art in his early teens. He has made many transitions in his development as an artist. He has worked from photos, imagination and has done commissioned works. He studied both art and architecture to increase his knowledge base. He is continuing to build upon that base by studying the techniques of the masters. Currently he is painting from his imagination and hopes to produce artwork with a realistic feeling.
